TANIA FERRIER: POP PORN

CITY OF FREMANTLE ART COLLECTION

Tania Ferrier's new exhibition *Pop Porn* is a reverent acknowledgement of women's experiences and an investigation into the representation of women in popular pornography of the 1980s.

This City of Fremantle Art Collection exhibition presents a series of Ferrier's new print works and short animated videos alongside a survey of her internationally renowned *Angry Underwear* project.

Continuing Ferrier's decades-long feminist practice, the new body of digital prints use photo-montage processes to reassemble 'taboo' 1980's *Playboy* centrefolds.

Challenging misogynistic gender ideals and giving voice to feminine authority, Ferrier reimagines women's bodies from passive, objectified figures into dynamic surrealist forms.

The new works featured in *Pop Porn* were developed while Ferrier was in residence at Fremantle Arts Centre in 2020.
